Adventure Summary

Venture-Captain Eando Kline brought you to Thuvia, where he presented you with the *calamitous dagger*, a mysterious magical blade that could help you find where the automaton Star was buried in the desert. You journeyed to the dig site and met a motley assortment of people who were eager to see Star, many of whom intended to convince Star to work with them in the future. You defended Star in an attack from elementals and tracked down the attack's source, the wizard Anavras. After defeating Anavras's minions, you returned to the dig site just in time to witness a magical ship sailing in through a portal in the sky, captained by the night hag Aslynn. After defeating her assault, you spoke with Star and find out what they wanted for their future. Ultimately, you (☐ earned/ ☐ did not earn) Star's trust.
